UP10 Boat Fender

HTM through-hole PVC boat fenders adopt eco-friendly PVC with vertical ribs. The ribbed structure boosts wear, puncture and tear resistance, alongside reliable UV stability and air tightness. Consistent wall thickness delivers long service life, and the through-hole design supports vertical or horizontal mounting. Suitable for 20–50ft medium-to-large yachts for hull anti-collision protection.

Model	Code	Diameter(CM)	Length(CM)	Weight(g)	Eye Dia(CM)	Boat Size(M)
HTM1	UP-H001	9	33	1100g	2	3-5m
HTM2	UP-H002	11	40	2000g	2	6-9m
HTM3	UP-H003	14	50	3000g	2	8-10m

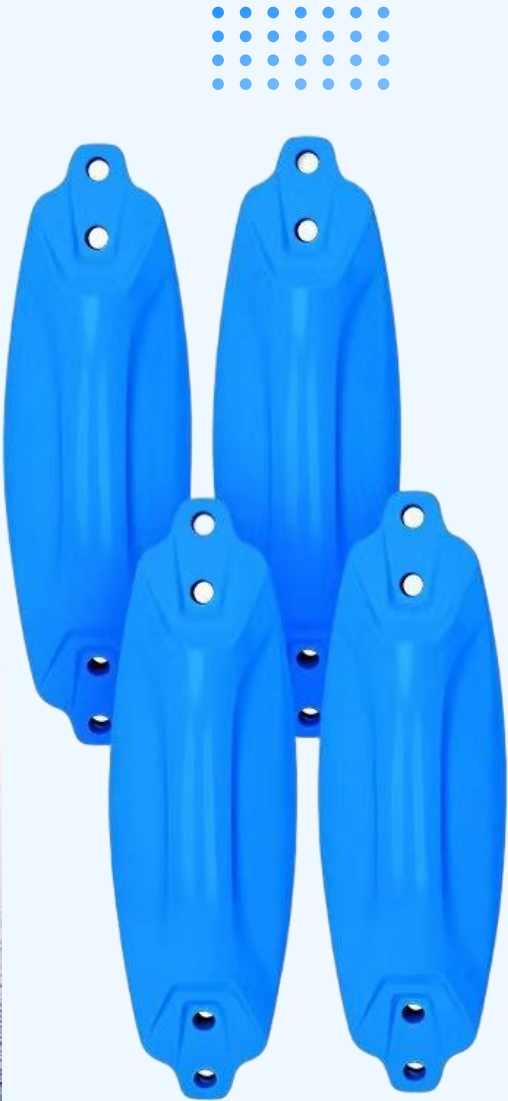

CENTER HOLE DESIGN
It can hang horizontally or vertically

UP11 Boat Fender

B Series Dock Bumper is a shock-absorbing device that can be attached to your dock. Protecting your dock and boat with dock bumpers are essential to the longevity. There are 6 hanging points and reinforced eyelets of this kind item, they are versatile and can hang high, or down low. You can even interlock multiple boat fenders for maximum boat protection! Can open more sizes for the market.

Model	Code	Diameter (CM)	Length (CM)	Weight (g)	Eye Dia (CM)	Boat Size (M)
B1	UP-B001	17.8	56	1300g	2.0	8-10m

UP12 Boat Fender

High-liner Cylindrical,bullet-shaped buoys are specially designed to reduce drag when used under conditions with strong currents.The special oval design and ribs along the body contribute to a lower drag and for the buoy to skip on the surface,instead of being dragged down in high currents,harsh weather and when retrieving the buoy.

Model	CODE	Diameter (CM)	Length (CM)	Weight (g)	Eye Dia(CM)	Boat size(M)
LD1	UP-LD001	21.5	48	1500g	2.5	6-8m

PWC fender

UP18 EVA Boat Fender

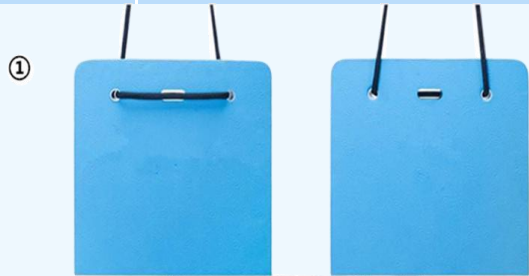

This kind boat bumpers designed with 3 layer EVA, not need inflate.EVA material is acid and alkali resistant, abrasion resistant, lower resist tearing but not easy to being punctured. Flat design prevents rolling or riding up, easy to fix and store. Both ends are designed with 3 reinforced holes, can be hung vertically or horizontally. Fasten fenders together with hook and loop strap, connect multiple boat fenders to extend fender lengthand

MODEL	CODE	Width(CM)	Length(CM)	Tickness(CM)	Weight (g)	Eye Dia(CM)
I1	UP-I001	19	49	5	350g	1.5
I2	UP-I002	29	59	8	450g	1.5
I3	UP-I003	29	89	8	800g	1.5

3 layer design
More resistant to vibration

Various link methods

UP19 EPE Boat Fender

Unlike spherical fenders that roll when rubbing against docks, our vinyl flat and contour fenders stay fixed in position. The contour design fits closely to boat hull curves for full coverage, and works best hung vertically; it can also be mounted horizontally, on docks or posts. Flat styles never shift under continuous dock friction

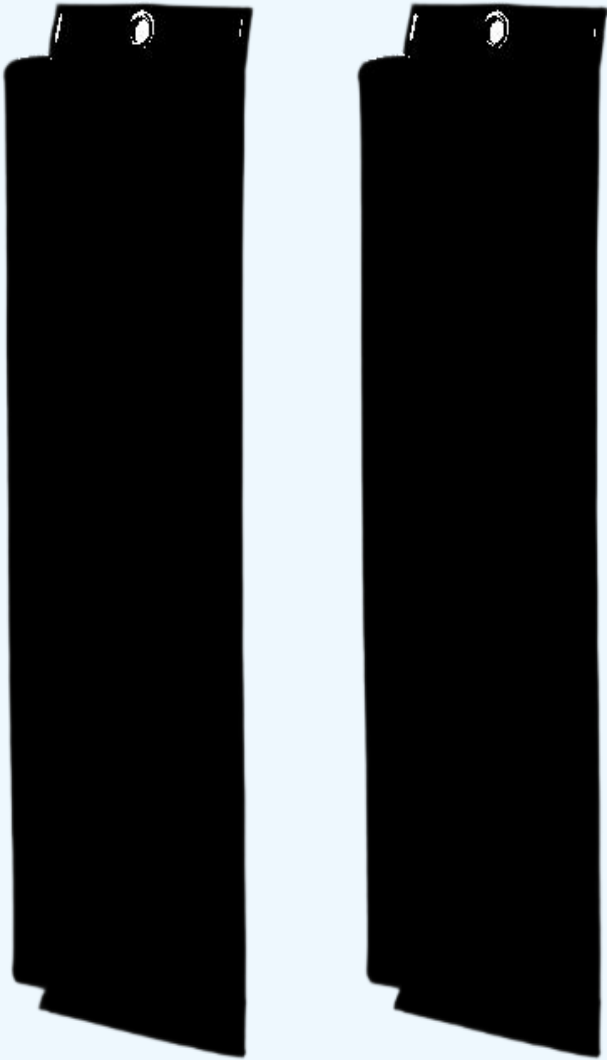

Model	Code	Length (inch)	Width (inch)	Thickness (inch)	Weight (g)
